AUTOMOTIVE SERVICES

Roadside Assistance

Roadside assistance is available 24 hours a day, seven days a week, across Canada and the U.S., to assist you when the vehicle you are either driving or riding in breaks down. Your CAA Saskatchewan membership coverage applies to the services listed below.

- **Eligibility**

Any Member who is driving or travelling in an approved vehicle is eligible for service. Your CAA membership covers you, not your vehicle, and is non-transferable. It will not cover service to non-members, relatives, spouses or friends, nor will it be rendered to an unattended vehicle. Members will be required to show their membership card and photo identification at the time of service. If circumstances (acceptable to CAA) prevent you from being present, you must advise CAA that a representative will present your card when the driver arrives. Only one roadside assistance call per breakdown will be allowed.

- **Eligible Vehicles**

Roadside assistance applies to licensed four-wheel motor-driven vehicles of the passenger, pleasure or recreational type¹, regardless of licence designation. Dual-wheel camper/motorhomes qualify for full service with the exception of towing/extrication and tire service for which a Plus RV or Premier RV membership is required. All trucks with campers in box require Plus RV or Premier RV. The Club or its contractor will refuse to tow an unregistered vehicle. Recovery of light duty trailers (excluding fifth-wheel trailers) being towed at the time of disablement can be provided at the Member's expense.

Motorcycle service is available under the terms of CAA Plus or Premier membership.

Service acquired in the U.S. on motorcycles and trailers carrying snowmobiles or boats must be paid for on site and receipts for reimbursement can be submitted for consideration to CAA Saskatchewan.

Excludes: Fleet vehicles, flatbed trucks, cube van, commercial purpose vehicles, limos and taxis.

¹ Rented passenger vehicles are eligible for service. NOT eligible for service are taxis, limousines, school buses, flatbed trucks, cube vans, off-road and commercial purpose vehicles.

- **Roadside Assistance: Complete Details**

The following services will be provided to return your vehicle to a driveable condition. If these attempts are unsuccessful after reasonable effort by the service provider, towing service will be provided as per the terms of your membership.

- **Minor Mechanical Adjustments:** Minor/temporary adjustments will be made in an attempt to enable your vehicle to operate safely under its own power.
- **Battery Boost:** A battery boost will be provided in an attempt to start your vehicle. If any qualified vehicle cannot be started within a reasonable amount of time, the towing provision will apply.
- **Battery Service:** CAA Saskatchewan will test, boost and replace your battery if needed through the Battery Service program. If the test shows a new battery is required you can purchase one on the spot. Only available in Regina and Saskatoon. Some restrictions apply.
- **Flat Tire:** On any four-wheeled vehicle your spare tire will be installed if it is inflated and serviceable. When this service is performed the wheel lug nuts must be re-torqued after the vehicle has been driven 50 kilometres or before it is operated at highway speeds.

Also remember that there are limitations on the speed and distance a space saver spare tire can be driven. If the spare tire is flat, wheel lug nuts and/or the spare tire holder are seized, the security wheel lock system is damaged or missing, or the security key and the wheel cannot be removed, the vehicle will be towed in accordance with the terms of your membership. *Note: CAA is not responsible for the damage to a spare tire holder if it is seized from corrosion, lack of use, or frozen due to ice and snow.*

Service does not include: repairs; additional trips to deliver a repaired tire; installation or removal of tire chains; mounting, dismounting or shifting of tires; or seasonal tire changeovers.

For Plus RV or Premier RV Members, a flat tire will be replaced with your inflated spare tire on a trailer, with the same service limitations as listed above. CAA Plus or Premier coverage provides towing services for motorcycles.

Canadian registered vehicles will not be towed into the U.S for repairs due to U.S. border and trucking regulations.

- **Fuel Delivery:** A sufficient supply of fuel will be delivered to your disabled vehicle to enable you to reach the nearest open service station or cardlock facility or your vehicle will be towed to a facility where fuel is available. The cost of the fuel will be at the Member's expense and based on current pump prices at the time of delivery. (CAA Plus and Premier

Members receive a sufficient amount of fuel free of charge.) CAA Saskatchewan cannot guarantee the availability of specific brands or octane ratings. The Member is responsible for the cost of diesel exhaust fluid. There are areas of the province where diesel exhaust fluid is not available 24/7.

- **Lockout Service:** If your keys are locked inside the vehicle, a service provider will be sent to gain entrance.

If your keys are lost or broken, or the service provider cannot gain entrance to your vehicle, locksmith service (up to \$50 for CAA Basic members and \$100 for CAA Plus and Premier members) will be provided. Key fob service is not included. In cases where the vehicle cannot be made operable, towing service will be provided in accordance with the terms of your membership.

- **Extrication:** Your vehicle will be extricated when it can be safely reached from a normally travelled and maintained road or thoroughfare. This excludes beaches, vacant lots, private logging roads, frozen lakes, winter roads, fields, tote roads and any other hard-to-reach place requiring special equipment. Surcharges may apply if special equipment is required.

Roadside assistance cannot be rendered to a vehicle that is snowbound in a driveway, lane, road or street. If special equipment, more than one vehicle, or more than one person is required, the associated cost will be at the Member's expense. CAA Plus and Premier extends coverage to include, as required, the service of a second vehicle for up to one hour at the scene of disablement. If the vehicle is unable to be operated after the extrication, the extended towing benefit will apply.

- **Towing:** When your vehicle cannot be safely driven after attempting any of the listed roadside assistance services, it will be towed to the nearest contract facility or five kilometres for basic Members or 160 km for CAA Plus and Premier Members, from the point of disablement in any direction. CAA Premier Members are entitled to one tow of up to 320 km per year (as part of their five eligible calls). A charge per kilometre will be applied by the service facility to any additional mileage over covered distance. A Member requiring more than their four (or five for Premier) roadside assistance calls in a membership year will be charged for subsequent calls. Members with ten consecutive years with CAA also receive one additional roadside assistance call.

- **Bike Assist:** If your bicycle lets you down, give us a call and we will transport you and your bike to your required destination: within the towing coverage stated in the membership level you have chosen.

- **Ride Assist:** CAA will help Members that are unable to personally drive their vehicle home due to personal health issues, broken or lost prescription eye wear or related vision concerns, and other physical impairments.

- **Additional Premier Roadside Assistance**

As a CAA Premier Member, you'll enjoy even more benefits on the road.

If your Vehicle is towed as a part of your allowed CAA roadside calls and you are stranded without transportation you are eligible for a car rental (up to a full-size vehicle) for a maximum of two days. This benefit is valid for Premier Members who are within 160 km of their residence (if the breakdown is more than 160 km from your residence please refer to the Trip Accident/Trip Interruption section of this handbook). The Premier Member has up to 48 hours from the time of the tow to rent a vehicle. Claims must be submitted within 30 days. Extra day rental charges, upgrades, vehicle insurance, mileage, and fuel charges are the responsibility of the Member. This benefit can be used once in a membership year.

- **Scope of Service**

Under your membership, roadside assistance will be provided without charge from the nearest available CAA contractor.

For your protection, service cannot be provided to an unattended vehicle. In extenuating circumstances, an exception may be made if prior arrangements have been made with CAA Saskatchewan.

In certain areas, service is provided by independent contractors who are not employees of CAA Saskatchewan or its affiliates. Responsibility for loss, damage or unsatisfactory workmanship lies with the contractor providing the service.

CAA Saskatchewan disclaims any responsibility for loss of work time or any other expenses resulting from service delay.

- **Alternate Services**

Service delays are sometimes unavoidable due to heavy demands during extreme weather conditions. You can also avoid telephone delays by requesting roadside assistance online at caask.ca or through the CAA mobile app. If you

are unable to reach CAA, you may call the nearest available service provider. For reimbursement consideration, you must provide the original receipt within 30 days of the date of service. Please include your name, membership number, date, nature and location of service.

The rules and regulations of CAA Roadside Assistance Services are subject to change. If you have any questions, please contact CAA Saskatchewan.

Damage claims and service complaints must be reported to CAA Saskatchewan within 30 days of a roadside assistance request.

All claims are investigated and fraudulent claims will be prosecuted. CAA Saskatchewan will not consider damage claims that have been repaired prior to an inspection by the CAA investigation staff or its agents.

- **Extreme Weather**

CAA Roadside Assistance may not be available during severe weather, such as blizzards or whiteout conditions, when poor visibility and unsafe roads prevent our service providers from reaching stranded motorists. Before travelling, please follow these important tips:

1. Check road and weather conditions. Delay travel if visibility and travelling conditions are poor.
2. Pack a vehicle emergency survival kit, including a fully-charged cell phone and car charger.
3. Plan your route in advance and let others know your route and expected travel time.
4. Pack clothing appropriate for the weather and also non-perishable food and water.
